

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + Refrain from automated querying Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at http://books.google.com/

GENERAL CATALOGUE

OF THE

FLORA OF VERMONT.

By GEORGE H. PERKINS, Ps. D., Professor of Natural History in the University of Vermont.

MONTPELIER, VT.:

FREEMAN STEAM PRINTING HOUSE AND BINDERY. 1882.

FLORA OF VERMONT.

BY GEORGE H. PERKINS, PH. D. Professor of Natural History in the University of Vermont.

Since the list of Vermont plants published by Oakes in Thompson's Vermont in 1842, none has been issued up to the present time. A list was commenced by the author in the "Archives of Science" in 1872, but it came to a speedy end on account of the discontinuance of that periodical. No apology is needed for the publication of a new list after an interval of forty years, for changes in nomenclature and especially the discovery of species new to the State are suffi-ciently numerous to render the old list nearly useless to the collector of to day. It has for several years been my wish that a new list of Vermont plants should be prepared by Mr. C. G. Pringle, of Charlotte, who is better acquainted with our flora than any one else, but it does not seem probable that this gentleman will find leisure from his other duties to do this work, and I therefore avail myself of the opportunity afforded me by the secretary of the Board of Agriculture to print the following list in the report of that Board. the compilation of this list I have made use of all the materials available, and it is believed to be tolerably complete. Besides the list of Mr. Oakes referred to, I have used the herbarium of Vermont plants belonging to the University, collected by the late Prof. Joseph Torrey. I have also lists furnished by Mr. C. C. Frost, of Brattle-I have also lists furnished by Mr. C. C. Frost, of Brattleboro, not long before his death, giving the results of his later explorations, and Mr. F. H. Hosford, of Charlotte, Mr. Pringle's associate in study and exploration, has very kindly furnished me with notes of his own and Mr. Pringle's discoveries, which have added many species to the list. Mr. Lucius Bigelow, who has botanized extensively about Burlington and Rutland, has also furnished me with lists of new plants found by him, and my own explorations have enabled me to verify many of the discoveries of others, as well as to add to them. I would also acknowledge indebtedness to Prof. Jessup's "Flora of Hanover, N. H.," in which several Vermont localities for plants hitherto undiscovered in the State are given. These are indicated by quotation marks in the following list. more space been at my command some synonymy might have been introduced, and more specific information as to localities. Botanists will not fail to notice that names have been assigned to some of the genera and species which would not have been used by the latest botanical authorities, but it has been thought unwise to adopt changes not yet introduced into the botanical manuals accessible to the common student. When the English, or common name, of a plant is really in use it has been given, but no attempt has been made to provide common names for plants that have none.

* Introd Spice

CATALOGUE OF PLANTS.

EXOGENOUS PLANTS.

POLYPETALOUS EXOGENS.

Order 1.—RANUNCULACEÆ.

CLEMATIS, L.

verticillaris, D. C. Atragene. Not common.
viorna, Wild. Castleton, near Brattleboro. C. C. Frost.
Virginiana, L. Common elematis. Common in damp thickets.

Anemone, L.

cylindrica, Gray. Sparingly in many localities.
multifida, D. C. Common near Burlington.
Virginiana, L. Common.
var. alba. Common.

nemorosa, L. Abundant in open woods and copses. Pennsylvanica, L. Common.

HEPATICA, Dill. Liverwort.

triloba, Chaix. Very common.

" var. acuta. Less common than the species.

THALICTRUM, Tourn. Meadow Rue.

anemonoides, Mich. Woods, southern part of State. Rare.

dioicum, L. Common in meadows.

Cornuti, L. Very common.
Ranunculus, L. Buttercup.

aquatilis, L, var. capillaceus. Sluggish streams.

multifidus, Pursh. Streams. Common.

Flammula, L, var. reptans, Gray. Shore of Lake Champlain and borders of large streams.

abortivus, L. Common in shaded places.

divaricatus, Scb. "Windsor, Leland." Rare. sceleratus, L. Not common.

recurvatus, Poir. Moist hillsides.

Pennsylvanicus, L. Common in low ground.

fascicularis, Muhl. Moist ground. Not common.

**repens, L. Moist ground. Not common. **bulbosus, L. Hillsides. Rare.

*acris, L. Very common everywhere.

Caltha. Cowslip. Marsh Marigold.

palustris, L. Common in wet meadows and swamps.

Trollius, L. Globe flower. laxus, Salisb. Rare.

Coptis, Salisb. Gold thread.

trifolia, Salisb. Common in clearings and edges of groves.

Aquilegia, Tourn. Columbine. Honey suckle.

Canadensis, L. Common. Sometimes found with white flowers.

vulgaris, L. Escaped from cultivation.

ACTEA, L. Baneberry.

spicata, L, var. rubra, Mx. Wooded hillsides.

alba, Big. More common than the preceding.

Cimiruga, L. Snake root.

racemosa, Ell. Rocky woods. Rare.

Order 2.—MAGNOLIACEÆ.

LIRIOSENDRON. Tulip Tree. Whitewood. tulipifera, L. Found only in southern Vermont.

Order 3.—MENISPERMACEÆ.

MENISPERMUM, L. Moon-seed.

Canadense, L. Common, especially northward.

Order 4.—BERBERIDACEÆ.

Berberis, L. Barberry.
*vulgaris. Not common.

14

ŧ

CAULOPHYLLUM, Mx. Pappose-root. thalictroides, Mx. Common.

Podophyllum, L. May Apple.

peltatum. Southern portion of the state. Not common.

Order 5.—NYMPHÆACEÆ.

Brasenia, Sch. Water shield. peltata, Pursh. Common.

Nymphæa, Tourn. Pond-lily.

odorata, L. Common.

tuberosa, Paine. Mouth of Missisquoi river, Jessup. Winoski river, Pringle.

Nuphar, Sm. Yellow-lily. Cow lily.

advena, Ait. Common.

pumilum, Sm. Lake Champlain, near Burlington.

Order 6.—SARRACENIACEÆ.

Sarracenia, Tourn. Pitcher Plant. Side-saddle Flower. purpurea, L. Common in swamps.

Order 7.—PAPAVERACEÆ.

Papaver, L. Poppy.
*dubium, L. Cultivated grounds, C. G. Pringle.

CHELIDONIUM, L.

*majus, L. Not uncommon about dwellings.

Sanguinaria, Dill. Blood-root.

Canadensis, L. Not very common.

Order 8.—FUMARIACEÆ.

ADLUMIA, Raf. Mountain Fringe. cirrhosa, Raf. Not common.

Dicentra, Bork.

cucullaria, D. C. Common in damp woods. Canadensis, D. C. Less common than the first.

CORYDALIS, Vent.

glauca, Pursh. Not com aurea, Willd. Common. Not common.

Order 9.—CRUCIFERÆ.

NASTURTIUM, R. Br. Cress.

> palustre, D. C. Common in wet places.

var. hispidum, May. Borders of Ponds.

lacustre, Gray. Borders of Otter Creek.

*Armoracea, Fries. Escaped from cultivation.

DENTARIA, L.

diphylla, L. Rare.

maxima, Nutt. Near Burlington. Very rare.

heterophylla, Nutt. A. P. Morgan.

baciniata, Muhl. More common than the other species.

CARDAMINE, L.

rhomboidea, D. C. Not Common. rotum ifolia, Mx. "Vermont," Robbins. hirsuta, L. Wet places.

var. sylvatica, Gray. Hillsides.

pratensis, L. Chiefly found in northern Vermont.

Rock Cress. Arabis, L.

lyrata, L. Not common.

petreea, Lam. Willoughby mountain, H. Mann.
hirsuta, Scop. Common in wet places.
lævigata, D. C. Not common. Rocky soil.
Canadensis, L. Winooski river, Colchester, Torrey.
perfoliata, Law. Rocky soil. Southern part of the state.

Drummondii, Gray. "White River Junction and Norwich," Jessup.

BARBAREA, R. Br. Winter Cress.

vulgaris, R. Br. Meadows. Rather common.

ERYSIMUM, L.

cheiranthoides, L. Brattleboro, C. C. Frost.

SISYMBRIUM, L. Hedge Mustard. *officinale, Scop. Common. *thalliantan, Gaud. Not common.

Brassica, Tourn. Mustard.

*sinapistrum, Bois. Not common.

*nigra, Gray. Common on cultivated ground. *campestris, L. Richmond, C. G. Pringle.

DRABA, D. C.

arabisans, Mx. Shores and islands of Lake Champlain and Willoughby Lake. Rare. incana, L. Willoughby mountain. verna, L. Willoughby Lake, Wood.

CAMELINA, Crantz.

*sativa, Crantz. Old fields. Common.

CAPSELLA, Vent. Shepherd's Purse. *Bursa pastoris, Mænch. A common weed.

Thlaspi, Tourn. Cress.

Monkton, Pringle: Pomfret, A. P. Morgan. Not *arvensis. common.

Lepidium, L. Pepper Grass.

Virginicum, L. Not very common.

*ruderale, L. Dry soil. Rutland, Pringle; near lake shore, Burlington. Rare.

RAPHANUS, L. Radish.

Raphanistrum, L. Old fields; not common.

*tinctoria, L. Banks of Winooski river, near Burlington.

Order 10.—CAPPARIDACEÆ.

POLANISIA.

graveolens, Raf. Shores of Lake Champlain.

Order 11.—VIOLACEÆ.

VIOLA. Violet.

rotundifolia, Mx. Not common. blanda, L. Very common.

renifolia, Gr. Lyndon, J. W. Congdon.

*Selkirkii, Goldie. Cedar swamps. Rare.

cucullata, Ait. Common.

var. palmata, Gray. Not common.

Not rare in rocky woods. sagittata, Ait.

pedata. Brattleboro, Frost. rostrata, Pursh.

striata, Muhl. Common. Canadensis, L. Common.

canina, var. sylvestris, Reg. Common. pubescens, Ait. Common. var. eriocarpa, Nutt.

Order 12.—CISTACEÆ.

Helianthemum, Tour. Rock Rose. Canadense, Mx. Not common.

HUDSONIA.

tomentosa, Nutt. Colchester Point, C. G. Pringle; L. Bigelow.

LECHEA, L. Pinweed.

major, Mx. Common on dry soil.

minor, L. Common.

Order 13.—DROSERACEÆ.

Drosera, L. Sundew.

rotundifolia, L. Common on damp damp banks.

longifolia, L. Swamps; common.

Order 14.—HYPERICACEÆ.

Hypericum, L. St. John's-wort.

pyramidatum, Ait. Not common.

ellipticum, Hook. Common.

perforatum, L. Common.

corymbosum, Muhl. Common.

mutilum, L. Not common.

Canadense, L. Not common.

Sarothra, Mx. Brattleboro, Frost.

ELODEA Ad.
Virginica, Nutt. Swamps. Common.

Order 15.—CARYOPHYLLACEÆ.

Dianthus, L. Pink.
**Armeria, L. Common.

Saponaria, L. Bouncing Bet. *officinalis, L. Common.

Silene, L. Catch-fly.

*inflata, Sm. Common.

Antirrhina, L. Not common.

noctiflora, L. Common.

Lychnis. Corn Cockle.

Githago, Lam. Not common.

Arenaria, L. Sandwort.

*serpyllifolia, L. Sandy soil.

stricta, Mx. Cliffs. Common.

Grænlandica, Sp. Mountain summits. Common. lateriflora, L. Damp woods.

STELLABIA, L. Chickweed.

media, Sm. Common.

longifolia, Muhl. Common.

borealis, Big. Mountains.

graminea. Monkton, C. G. Pringle.

CERASTION. L. Mouse ear Chickweed.

*vulgatum, L. Common.
nutans, Raf. Moist places
arvense, L. Monkton, C. G. Pringle. "Rocky pastures north
of Windsor, Flint."

Anychia, Mx
dichotoma, Mx. Rocks near Burlington. Not common.

Sagina procumbens, L. Brattleboro, Frost.

Spergula, L. *arvensis, L. Grain fields.

Mollugo, L. Carpet weed. verticillata, L. Sandy soil. Common.

Order 16.—PORTULACACEÆ.

Portulaca, Tourn. Purslane. oleracea, L. Far too common.

CLAYTONIA, L. Spring Beauty.
Virginica, L. Common.
Caroliniana, Mx. Not common.

Order 17.—MALVACEÆ.

Malva, L. Mallow.

*rotundifolia. L. Common in door yards. *sylvestris, L. Southern part of the State

Abutilon, Tourn. Velvet Leaf.
*Avicennæ, Gært. Waste places.

Order 18.—TILIACEÆ.

Tilia, L. Linden. Basswood. Americana, L. Common.

Order 19.—LINÀCEÆ.

Linum, L. Flax.

Virginianum, L. Dry woods. Pownal.—Robbins.

*\text{usitatissimum}. L. Old fields.

Order 20.—GERANIACEÆ.

Geranium, L. Cranesbill.

maculatum, L. Common,

Carolinianum, L. Not very common.

*dissectum, L. "Hills near Castleton."—Robbins.

Robertianum, L. Not rare.

ERODIUM, L'Her. cicutarium, L. "Ludlow, Mrs. Pollard."

FLERKEA, Willd. proserpinacoides, Willd. Colchester, F. H. Hosford.

IMPATIENS, L. Balsam.

pallida, Nutt. Less common than the next species.

fulva, Nutt. Common.

Oxalis, L. Sorrel.

Acetosella. Mountain woods. Common.

violacea, L. "Cavendish, Dr. Graves."

stricta, L. Common.

Order 21.—RUTACEÆ.

Xanthoxylum, Cald. Prickly Ash.

Americanum, Muhl. Not common.

Order 22.—ANACARDIACEÆ

Rhus, L. Sumach.

typhina, L. Hillsides. Common.

glabra, L. Hillsides.

copallina, L. Not common.

venerata, D. C. Swamps. Not Common. Poisonous.

Toxicodendron, L. Poison Ivy. Common.

aromatica, Ait. Not common.

Order 23.—VITACEÆ.

VITIS. Grape Vine.

Labrusca, L. Thickets. Common. (Fox Grape.)

**cordifolia, Mx. Common.

**cordifolia, Mx.

riparia, Mx. (Frost Grape.)

Ampelopsis. Woodbine. quinquefolia, Mx.

Order 24.—RHAMNACEÆ.

RHAMNUS. Buckthorn.

*catharticus, L. Not common.
alnifolius, L'Her. Swamps.

11

CEANOTHUS.

Americanus, L. Common. ovalis, Desf. Sandy shores of Lake Champlain.

Order 25.—CELASTRACEÆ.

CELASTRUS, L. Bittersweet. scandens, L. Common.

EUONYMUS. Burning Bush.

atropurpureus, Jacq. Common in cultivation, and wild in Canada, and may be found wild in Vermont.

Order 26.—SAPINDACEÆ.

STAPHYLEA, L. Bladder Nut. trifolia, L. Not common.

Acer, Tourn. Maple

ţ

Pensylvanicum, L. (Mouse Wood.) Common. spicatum, Lam. Common on rocky hillsides. saccharinum, L. Common. (Sugar Maple.)

" var. nigrum, Gray. Less common than the preceding.

dasycarpum, Ehrh. Common. (White Maple.) rubrum, L. Swamps. (Red Maple.)

NEGUNDO. Box Elder.

aceroides, Mænch Not common.

Order 27.—POLYGALACEÆ.

Polygala, Tourn Milkwort.

ambigua, Nutt. Not common.

paucifolia, L. Very common in dry, open woods.

polygama, Walt. Common.

sanguinea, L. Not common

Senega, L. Abundant.

verticillata, L. Near Bellows Falls. Not common.

Order 28.—LEGUMINOSÆ.

Lupinus, Tourn. Lupine.

perennis, L. Common on sandy soil—sometimes with white flowers.

Trifolium, L. Clover.

**arvense, L. Dry fields. Not common.

pratense, L. Common red clover.

stoloniferum, Muhl. Bellows Falls, Mrs. Brown.

repens, L. Common white clover.

*agrarium, L. Yellow clover. Common.

*procumbens, L. Rather common.

Mellotus, Tourn. Sweet clover.

*officinalis, Willd. Not common.

*alba, Lam. Common.

Medicago, L.

*sativa, L. "Pomfret, A. P. Morgan."
*lupulina, L. Rare. South Hero, and a few other localities.

Robinia, L. Locust.

*Pseudacacia, L. Escaped from cultivation in some places.

*viscosa, L. Also in a few places escaped from cultivation.

Astragalus, L.

Canadensis, L. Not common. Shore of Lake Champlain.

alpinus, L. Mountain sides. Northern Vermont. Bellows

Falls, Mrs. Brown. Rare.

Robinsii, Gray. Near Burlington; also at Hartland, and near

Hanover, N. H.

Hedysarum, Tourn.

boreale. Willoughby Mountain, Wood. Mt. Mansfield, Pringle.

Desmodium, D. C. Tick Trefoil.

acuminatum, D. C. Dry woods. Common.

acuminatum, D. C. Dry woods. Common.

Canadense, D. C. Common along streams.

canescens, D. C. Dry soil. Not rare.

Dillenii, Darl. Chiefly found in Southern Vermont.

nudiflorum, D. C. Common.

paniculatum, D. C.

Lespedeza, Mx. Bush Clover.

repens. Barton. Brattleboro, Frost.

violacea, Pers. Dry woods.

hirta, Ell. Dry soil.

capitata, Mx. Pastures. Common.

Vicia, Tourn. Vetch.

*sativa, L Common in grass and hedges.

Cracea L. Common.

maritimus, Bigel. Shores of Lake Champlain.
ochroleucus, Hook. Rare in most places. but abundant on
bluffs on Lake Champlain and on some of the islands.
palustrus, L. Sandy shores of Lake Champlain.
"var. myrtifolius, Gray. Not common.

Apios, Boer. Ground Nut. tuberosa, Moen. Common.

Amphicarpea, Ell. Ground nut.

monoica, Nutt. Common in damp thickets.

Cassia, L. Senna.

Marilandica, L. Not common. Confined to the Southern part of the State.

Order 29.—ROSACEÆ.

Prunus, Tourn. Plum. Cherry.

Americana, Marsh. Not common. (Wild Plum.)

pumila, L. Rocky shores of Lake Champlain.

Pennsylvanica, L. Common. (Wild red Cherry.)

Virginiana, L. Common. (Choke Cherry.)

serotina, Ehr. Common. (Black Cherry.)

Spiræa, L. Meadow Sweet. Spriæa.

salicifolia, L. Not very common.

topmentosa, L. Common in pastures. (Hardhack.)

lobata, Murr. (Queen of the Prairie.) I saw a large clump of
this this summer by the roadside near East Randolph. As it
was at some distance from any dwelling, and apparently naturalized, it may properly be included in this list, though
probably escaped from cultivation.

Agrimonia, Tourn.

Eupatoria, L. Rather common in moist places.

Poterium.

Canadense, Gray. Swamps. Brattleboro, Frost.

Geum, L.

album, Gmel. Not common. Borders of groves.

macrophyllum, Willd. Mt. Mansfield, Pringle.

strictum, Ait. Low grounds. Not common.

rivale, L. Swamps. Rather common.

Waldsteinia, Willd.

fragarioides, Traut. Very common.

Ì

Potentilla, L. Cinquefoil.

Norvegica, L. Common.

Canadensis, L. Dry pastures. Common.

argentea, L. Common.

arguta, Pursh. Moist grounds. Common.

anserina, L. Shores of Lake Champlain. Common.

fruticosa, L. Not common.

tridentata, Ait. Summits of higher mountains.

palustris, Scop. Swamps. Rare.

Fragaria, Tourn. Strawberry.

Virginiana, Ehrh. Rather common.

vesca, L. More common than the other species.

Dalibarda, L. repens, L. Common in damp woods.

Rubus, Tourn. Blackberry. Raspberry.

odoratus, L. Abundant along forest roads.

triflorus, Rich. Not common. Moist woods.

strigosus, Mx. Very common. Red Raspberry.

occidentalis, L. Black Raspberry. Common.

villosus, Ait. High Blackberry. Common. Canadensis, L. Low Blackberry. Less common than the preceeding.

Not very common. hispidus, L.

Rosa, Tourn. Wild Rose.

Carolina, L. Rocky pastures. Common.

Lucida. Ehr. Shores of Lake Champlain. Not common.

blanda, Ait.

Rocky pastures. Not common. (Sweet Brier.) *rubiginosa.

CRATEGUS, L. Hawthorn. coccinea, L. Common. tomentosa, L. Chiefly found in Southern Vermont. Crus-galli, var. punctata, Gray. Not uncommon.

Pyrus.

arbutifolia, L. Common in dry woods. vars. melanocarpa and erythrocarpa. Americana, D. C. Mountain sides. Common. (Mountain Ash.) Mt. Mansfield, Pringle. sambucifolia, C. & S.

AMELANCHIER, Med. Shad Bush. Canadensis, T. & G. Common.

var. Botryapium, Gray. Common. var. oblongifolia, Gray. Less common. 66

Not rare. var. rotundifolia, Gray. "

var. oligocarpa, Gray. · Camels Hump, . Horsford.

Order 30.—SAXIFRAGACEÆ.

RIBES, L. Currant. Gooseberry. Cynosbati, L. Common in rocky woods. (Wild Gooseberry.) "Union Village, Vermont, Jessup." Swamps. Not common. hirtellum, Mx. lacustre, Poir. prostratum, L'Her. Mountain forests. Not common. Woods. Not common. (Black Currant.) floridum, L. rubrum, L. Swampy and rocky places. (Red Currant.) aureum, Poir. Escaped from gardens. (Missouri Currant.)

Hydrangea, Gronn. Southern Vermont. Rare. arborescens, L.

Parnassia, Tourn. Caroliniana, Mx. Wet places. Not common.

SAXIFRAGA, L. opositifolia, L. Mansfield Mountain, Pringle Willoughby Lake, Wood. aizoides, L. Willoughby Lake, Wood. Mt. Mansfield, Pringle. aizoon, Jacq. Mt. Mansfield, Pringle. Virginiensis, Mx. Common. Pensylvanica, L. Swamps. Not common.

MITELLA, Tourn. Mitre Flower.

diphylla, L. Common on rocky slopes.

nuda, L. Less common. Swampy woods.

Tiarrila, L. cordifoliu, L. Abundant on moist banks.

Chrysosplenium, Tourn.

Americanum Sch. Not very rare.

Order 31.—CRASSULACEÆ.

Printhorum, Gronov. Stone Crop. sedoides, L. Common along ditches.

SEDUM, Tourn. Live for ever.

*acre, L. "Norwich, Vermont, on rocks."

*Telephium, L. Common.

Order 32.—HAMAMALACEÆ.

Hamamelis, L. Witch Hazel. Virginica, L. Common.

Order 33.—HALORAGEÆ.

Myriophyllum, Vaill. Millfoil.

spicatum, L. Ponds and streams.

verticillum, L. North Hero, Hosford.

heterophyllum, Mx.

tenellum, Bigelow. Grand Isle, Hosford.

PROSERPINACA, L. palustris, L. Ditches and wet places.

Order 34.—ONAGRACEÆ.

Circæa, Tourn.

Lutetiana, L. Shaded places. Common.

alpina, L. Woods and rocks. Common.

Epilobium, L. Willow Herb.

augustifolium, Common in clearings.

alpinum, L.

palustre, var. lineare, Gray. Swamps.

molle, Torr. Intervale land near Burlington.

coloratum, Muhl. Wet places. Common.

ENOTHERA, L. Evening Primrose.

biennis, L. Common. Roadsides and fields.

fruticosa, L. Willoughby Lake, Frost.

pumila, L. Rare. Woods.

Ludwigia, L. palustris, Ell. Swamps and bogs.

Order 35.—MELASTOMACEÆ.

RHEXIA. Deer Grass.

Virginica, L. Brattleboro, C. C. Frost.

Order 36.—LYTHRACEÆ.

NESEA.

verticillata, H. B. K. Borders of ponds, near Burlington. Bristol pond, Pringle.

Order 37.—CUCURBITACEÆ.

Sicvos, L. angulatus, L. River banks. Not common.

Echinocystis, T. & G. Wild Cucumber.

lobata, T. & G. Banks of streams. Not common.

Order 38.—UMBILLIFERÆ.

Hydrocotyle, Tourn.

Americana, L. Not common. Wet places.

Sanicula, Tourn. Snake Root.

Canadensis, L. Rather common. Woods.

Marilandica, L. Common.

Daucus, Tourn. Carrot.
*carota, L. Roadsides and fields.

Heracleum, L. Cow Parsnip.

lanatum, Mx. Low grounds. Not common.

Pastinica, Tourn. Parsnip.
*sativa, L. Escaped from cultivation. Old fields.

Archangelica, Hoffm.

atropurpurea, Hoffm. Meadows. Common in the south part of Vermont.

Conoselinum.

Canadense, T. & G. Swamps. Not common.

Thaspium, Nutt. Meadow parsnip.

aureum, Nutt. Common in damp fields.

"at var. apterum, Gray. Not very common.

trifolium, Gray. Rocky, shaded places. Not common.

"var. apterum. Gray.

integerrima, D. C. Borders of groves. Comm

CICUTA, L. Water Hemlock.

maculata, L. Meadows. Rather common.

bulbifera, L. Swamps. Not common.

Sium, L. Water Parsnip.

lineare, Mx. Ditches and brooks. Not common.

17

CRYPTOTÆNIÀ, D. C.

Canadense, D. C. Woods. Not common.

Osmorhiza, Raf. Sweet Cicely.

longistylis, D. C. Rich woods. Common.
brevistylis, D. C. Copses. Common.

Conium, L. Poison Hemlock.

maculatum, L. Not common.

Order 40.—ARALIACEÆ.

Aralla, Tourn. Spikenard.

racemosa, L. Woods. Common.

hispida, Mx. Rather common.

nudicaulis, L. Woods. Not rare.

quinquifolia, Gray. Woods. Not abundant.

trifolia, Gray. Common in damp woods.

Order 41.—CORNACEÆ.

Cornus, Tourn. Dogwood.

Canadensis, L. Damp, shaded ground. Common.

florida, L. Found only in the southern part of the State. Not common.

circinata, L'Her. Thickets and borders of woods.

sericea, L. Damp soil.

stolonifera, Mx. Borders of streams. Not common.

planticulata, L'Her. Rocky groves and woods. Common alternifolia, L. Woods and hillsides.

NYSSA, L. Piperidge Sour Gum. multiflora, Wang. Not common.

MONOPETALOUS EXOGENS:

· Order 42.—CAPRIFOLIACEÆ

Linnea, Gron.

borealis, Gron. Shaded hillsides and groves. Not very common.

Symphoricarpus. Snowberry.

racemosus, Mx. Rocky shores of Lake Champlain, and on some of the islands. Not common.

Lonicera, L. Honeysuckle.

parviflora, Lam. Rocks on shores of Lake Champlain.

hirsuta, Eat. Rocky woods.

ciliata, Muhl. Ledges. Not rare.

cærulea, L. Mountains and swamps.

DIERVILLA, Tourn.

Spruce.)

alba, Mx. Woods and wet places. (White Spruce.)

Canadensis, Mx. (Hemlock Spruce.)

balsaminea, Mar. Not common. (Balsam Fir.) A form of this species, resembling Abies Fraseri, is found on the summits of the higher mountains.

Larix, Tourn. Larch. Hackmatack.

Americana, Mx. Swamps. Common.

Thuja, Tourn. Cedar.
occidentalis, L. Very common. (White Cedar.)

CUPRESSUS, Tourn.

thyoides, L. Willoughby Lake, Frost. "Mt. Ascutney, Leland."

JUNIPERUS, L. Juniper.

communis, L. Common.

Virginiana, L. Not very common. (Red Cedar.)

sabina, L. var. procumbens, Pursh. Rutland, Mrs. Carr.

Taxus, Tourn. Yew.

baccata, L. Var. Canadensis, Gray. Cold, damp woods.

ENDOGENOUS PLANTS.

Order 89.—ARACEÆ.

Arisema, Mart.

triphyllum, Torr. Common.

Dracontium, Schott. Western portion of the State. Not common.

Calla, L. Calla.

palustris, L. Swamps. Common.

Symplocarpus. Skunk Cabbage, fostidus, Salisb.

Acorus, L. Sweet Flag. Calamus, L. Common.

Order 90.—LEMNACEÆ.

Lemna, L. Duckweed.

trisulca, L. Borders of ponds.

minor, L. Still water. Common.

polyrrhiza, L.

Order 91.--TYPHACEÆ.

Typha, Tourn. Cat-tail.

latifolia L. Swamps. Common.

angustifolia. Ferrisburgh, Pringle.

Sparganium, Tourn.

eurycarpum, Eng. Ditches and ponds.

simplex, Huds.

var. Nuttallii, Gray.var. fluitans, Gray. Sterling Pond, Pringle.

Order 92.—NAIADACEÆ.

Naias, L. , flexiles, Rost. Sluggish streams and ponds.

Potamogeton, Tourn.

compressus, L. Rivers and ponds. Not common.

Claytonii, Tuck. Dead Creek, Ferrisburgh, Pringle.

spirillus, Tuck. Brattleboro, Frost.

hybridus, Mx. Lake Champlain.

rufescens, Schr. "Windsor, Vermont. Infrequent."

lonchites, Tuck. Pringle.

lucens, L. Ponds.

amplifolius, Tuck. Pringle.

gramineus, L. Rivers and Ponds.

perfoliatus, L.

obtusifolius. Shelburne Pond, Pringle.

natans, L. Ponds.

pauciflorus, Pursh.

pectinatus, L. Lake Champlain.

prælongus, Wulf. Willoughby Lake, Wood.

pulcher, Tuck. Brattleboro, Frost.

Order 93.—ALISMACEÆ.

Scheuchzeria, L. Bogs.

ALISIMA, L. plantago, L. Common.

Sagittaria, L. lance flater L. Not common.

heterophylla. Mouth of Mississquoi River, Pringle.

"Pursh. Var. elliptica, Gray. Dead Creek, Ferrisburgh, Pringle.

variabilis, Engl. Very common.

graminea, Mx. Mouth of Missisquoi River, Pringle.

natans, Mx. Brattleboro, Frost.

Or 'er 94.—HYDROCHARIDACÆ.

Anacharis, Rich.

Canadensis, Planc. Not very common.

Vallisneria, Mich. Eel Grass. spiralis, L. Winooski River.

Order 95.—ORCHIDACEÆ.

Orchis, L. Orchis spectabilis, L. Damp woods. Not common.

Habenaria, Willd. blephariglottis, Hook. Bogs. Not commom. ciliaris, R. Br. Swamps. Not common. dilitata, Gray. Swamps. Not common. fimbriata, R. Br. Rare. Hookeri, Torr. Rather rare. hyperborea, R. Br. Damp, cold woods. lacera, R. Br. Bogs. Rare. obtusata, Rich. Camel's Hump. Orbiculata, Pursh. Damp, cold woods. psychodes, Gray. Meadows. rotundifolia, Rich. Monkton, Pringle. tridentata, Hook. Swamps. viridis, R. Br. Var. bracteata, Rich. Damp woods. virescens, Spreng. Wet meadows.

GOODYERA, R. Br.

repens, R. Br. Borders of wood roads. Not common.

pubescens, R. Br. Woods. Rather common.

Spiranthes, Richards.

latifolia, Torr. Moist places.

Romanzoviana, Champ. "North Pomfret, A. P. Morgan."

cernua, Rich. Meadows, along brooks.

gracilis, Big. Woods.

Listera, R. Br. cordata, R. Br. Borders of swamps. convallarioides, Hook. Mountain roads.

Arethusa, Gron.
bulbosa, L. Swamps. Common.

Pogonia, Juss.
ophioglossoides, Nutt. Swamps. Common.

pendula, Lindl. Cold woods. Rare. verticillata, Nutt. Woods. Very rare.

Calopogon, R. Br. pulchellus, R. Br. Swamps. Not rare.

Calypso, Salisb.

borealis, Salisb. Abundant in a few swamps, elsewhere very rare.

Tipularia, Nutt.

discolor, Nutt. Brattleboro, Frost. Rare.

MICROSTYLIS, Nutt.

monophyllus, Lindl. "Pomfret, Union Village, Mt. Ascutney."

ophioglossoides, Nutt. "Pomfret and Mt. Ascutney."

LIPARIS, Rich.

liliifolia, Rich. Moist banks. Rare.

Læselii, Rich. Meadows. Rare.

CORALLORHIZA, Hall.
innata, R. Rr. Damp woods. Rare.
odontorhiza, Nutt. Moist banks. Rare.
multiflora, Nutt. Very rare.

APLECTRUM, Nutt.

hyemale, Nutt. Woods. Rare.

CYPRIPEDIUM, L. Moccasin Flower. Lady's Slipper.

arietinum, R. B. Rocky woods. Rare.

parviforum, Sol. Rutland, L. Bigelow.

pubescens, Willd. Moist woods. Not common.

spectabile, Sw. Swamps. Not generally common.

acaule, Ait. Common in some places.

Order 96.—AMARYLLIDACEÆ.

Hypoxis, L. erecta, L. Southern part of the State.

Order 97.—IRIDACEÆ.

Iris, L. Blue flag. versicolor, L. Common.

S_{ISYRINCHIUM}, L. Bermudiana, L. Common.

" var. anceps, Gray.
" var. mucronatum, Gray.
" var. albidum, Gray.

var. albidum, Gray.

Order 98.—SMILACEÆ.

SMILAX, Tourn.

rotundifolia. L. Not common.

herbacea, L. Not common.

Order 99.—LILIACEÆ.

TRILLIUM, L.

7

grandiflorum, Salisb. Abundant in Western Vermont.

erectum, L. Common in moist woods.

var. album. Not common.

cernaum, L. Found only in the southern part of the State. erythrocarpum, Mx.

MEDEOLA, Gronov.

Virginica, L. Common.

VERATRUM, Tourn. Hellebore.

viride, Ait. Common in damp meadows.

Tofieldia, Huds.

glutinosa, Huds. "Queechy Gulf, Leland. Rare."

UVULARIA, L. Bellwort.

grandiflora, Sm. Not abundant.

perfoliata, L. Not common.

sessifolia, L. Our most common species.

STREPTOPUS, Mx.

amplexifolius, D. C. Mountain forests. roseus, Mx. Not common.

CLINTONIA Raf.

borealis, Raf. Very abundant in mountain forests.

Smilacina, Desf.

racemosa, Desf. Not rare.

stellata, Desf. Common.

trifolia, Desf. Swamps. Common.

bifolia, Desf. Very abundant.

Polygonatum, Tourn.

biflorum, Ell. Woods.

gigantea, Diet. Damp soil:

ASPARAGUS, L.

officinalis, L. Escaped in some places from cultivation.

LILIUM, L. Lily.

Philadelphicum, L. Dry soil. Common. Canadense, L. Meadows. Common.

ERYTHRONIUM, L.

Americanum, Sm. Common in low grounds.

ALLIUM, L. Garlic.

Woods. Not common. tricoccum, Ait.

schoenoprasum, L. "Windsor, Vermont, Leland."

HEMEROCALLIS, L. Day Lily.

fulva, L. Escaped from cultivation, Pringle.

Order 100.—JUNCACEÆ. .

Luzula, D. C.

pilosa, D. C.

parviflora, var. melanocarpa, Gr. Mountains.

campestris, D. C. Woods and fields.

spicata, Des. Smuggler's Notch, Pringlo.

JUNCUS, L. Rush. acuminatus, Mx. alpinus, Vill. Var. insignis, Fries. Shore of Lake Champlain. bufonius, L. Low grounds. Canadensis, Gray. Var. longicaudatus, Gray. Bristol Pond, Pringle. Canadensis, var. brachycephalous, Gray. effusus, L. Wet places. filiformis, L. Summits of higher mountains. marginatus, Rastk. Sandy river banks. nodosus, L. Wet meadows. pelocarpus, Meyer. Shores of ponds. tenuis, Willd. Low grounds. trifidus, L. Mountain summits.

Order 101.—PONTEDERIACEÆ.

Pontederia, L. cordata, L. Ponds. Common.

Schollera.

graminea, Willd. Otter Creek, near mouth.

Order 102.—XYRIDACEÆ.

XYRIS, L. Caroliniana, Walt. Brattleboro, Frost.

Order 103.—ERIOCAULONACEÆ.

ERIOCAULON, L.

Septangulare, With. Borders of Ponds.

decangulare, L. Willoughby lake, Wood.

Order 104.—CYPERACEÆ.

CYPERUS, L.

dentatus, Torr. Grand Isle, Pringle.
diandrus, Torr. var. castaneus, Torr. Borders of ponds.
filiculmis, Vahl. Dry soil.
inflexus, Muhl. Sandy river banks.
lutescens, T. & H.
phymatodes, Muhl. Sandy soil.
strigosus, L. Low grounds.

DULICHIUM, Rich. spathaceum, Pers. Borders of ponds.
